

National Institute of Aviation Training And Management

Introduction

NIATAM, Gondia is an Aviation Training Centre under Airports Authority of India (which is the largest airport operator in India, operating nearly 115 airports and providing air navigation services in the entire Indian subcontinent) with the mission to provide Air Traffic Management (ATM) and Communication, Navigation and Surveillance (CNS) training to AAI's personnel. NIATAM, Gondia is functioning under Civil Aviation Training College (CATC), Allahabad which is the only training institute in India providing such type of training. NIATAM is in the process of obtaining ISO and ICAO Trainair plus accreditation.

Trainees at NIATAM gets a good exposure to airport environment and aircraft as NIATAM is situated adjacent to National Flying Training Institute(NFTI) and Birsi Airport which is the largest exclusive flying training airport in India.

Academics

NIATAM is conducting courses of Air Traffic Management Ab-initio (Aerodrome and Approach Control) and Aviation English (PELA) for Air Traffic Controllers recruited by Airports Authority of India.
